TO WHOM IT MAY CONCERN

Declaration of electrical identity with respect to the HF behavior of WirelessHART Adapter SWA70

HVIN: SWA70A

FCC-ID: 2AIKP-SWA70A

IC: 21533-SWA70A

The WirelessHART Adapter SWA70 is a battery powered, interface module that connects HART and 4...20 mA devices to a WirelessHART network.

The Adapter is available in a plastic, aluminum or stainless steel housing. Device including electronic mainboard is designed for hazardous areas (EX); a subversion of the mainboard is built without the protective components in periphery parts for the non-EX variant of the adapter.

In all variants the RF portion of the WirelessHART Adapter is identically.
Full tests including spurious emission tests have been performed on EX-variants in the plastic and metal housing, spurious emission tests was also done on non-Ex variants.

Also see Test reports no.: 1-1825/16-01-02, 1-1825/16-01-03 (by Cetecom ICT Services).

If you have any questions, please feel free to contact us at the addresses shown below.

Sincerely,

Marc Fiedler
